

 **Introducing Copilot:**
A New Way to Work with
Microsoft 365

You may have heard about Copilot, the innovative AI-powered assistant that enhances your efficiency with Microsoft 365. ESW was lucky enough to get early access to this amazing new tool, and we've been having so much fun with it for the last few months. We can't believe what it can do - it's really incredible.

Copilot is not just another chatbot or voice assistant. It is a smart and proactive companion that understands your context, goals, and preferences. It will greatly improve how you work, increase your productivity, build new efficiencies and workflow to assist you in your day-to-day tasks. Copilot can help you with tasks like creating documents, scheduling meetings, sending emails, managing projects, and more. It can also give you personalized insights, tips, and feedback to improve your productivity and collaboration.

We'd love to tell you more about Copilot and how it can make your work easier as well as what you need to get ready for Copilot in your organization. Just reach out to us if you have any questions or want to chat.
